RoHS2 Declaration

January 5, 2015

The **Restriction of Hazardous Substances 2 (RoHS2)** Directive (Directive 2011/65/EU) is a European Union regulation restricting the levels of certain substances in electronic, electrical and medical devices, and in-vitro diagnostic devices.

Custom Resins Inc. is a manufacturer of polymer resins. We do not manufacture our products with, or add any of the RoHS2 listed substances to any of our products. These substances are not expected to be found in any of our polymer resins.

To the best of our knowledge, our raw materials do not contain nor are expected to contain the RoHS2 restricted substances

Since these substances are not expected to be found in our raw supplies or final products, we do not analyze our raw supplies or final products for the presence of RoHS2 listed substances nor require our raw material suppliers to do so.

Custom Resins does not manufacture electrical, electronic, medical or diagnostic parts or equipment. It is the responsibility of the manufacturer of the downstream products covered by the RoHS Directives to determine compliance of their products.

For further information, please contact our Customer Service Department at 973-694-4141.
